

PLEASE NOTE: THESE INSTRUCTIONS ARE PROVIDED AS A GUIDELINE ONLY TO ASSIST YOU CONFIGURING WIRELESS. IT STAFF ARE NOT PERMITTED TO WORK ON PRIVATELY OWNED LAPTOPS OR DEVICES.

1. Power up and log into your laptop as you normally would
2. Make sure the network cable is **DISCONNECTED** from your laptop
3. Turn on **AIRPORT** then select **CAMPUS-AIR**

4. An **802.1X Authentication** dialog box will appear, asking for your user name and password. Your username is your student number 100xxxxxx and your password is the same one used to log into the computers on campus. Once you have typed in this information, click **OK**

5. The following dialog box will appear asking you to **Verify Certificate** - click **Continue**. You are now joined to the **CAMPUS-AIR** network.
